Mobile Surveillance Trailer HMST365

PLATFORM

HarbinGer's cloud video surveillance and analytics platform grants you access to 24/7 optics and analytics of your video footage – helping you manage your assets from any location

Included

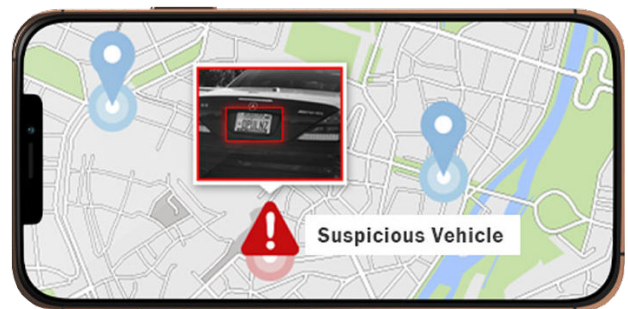

- People recognition
- Vehicle recognition
- Heat mapping system lets you know the flow of heavy traffic

CLOUD ANALYTICS

Optimize the power of HarbinGer's cloud processing — layer advanced cloud analytics alongside common camera-side feature sets to provide an enhanced user experience. Easily set custom alerts for email, or for app push notifications, to alert specific users during a set schedule.

Optional

- License plate recognition analytics
- Hard Hats (PPE) Detection
- Long Term Time-Lapse

Download the **MOBILE** app for access to your surveillance footage anywhere.
