Mast Lifting
- 2 x 60W**
LED Light
- 20400**
Lumens
- 350°**
Rotation
- 40units**
Low Shipping Cost

Features

- >> 2x410W Solar Panel
- >> High Illumination, total 20400 lumens
- >> 500Ah battery for 40 hours continuous running
- >> 21FT high mast, 350 degree rotation
- >> DC24V system
- >> Fitted with forklift pockets for transportation
- > No noise produced

Applications

- >> Mining site
- >> Construction
- >> Utilities
- >> Special events
- >> Military
- >> Airport and seaport
- >> Emergency lighting solution

Technical Information

- >> Power Source: 2x410watts solar
- >> panel Batteries: 2x250Ah, 24V DC
- >> Lamp: 2x60watts LED light
- >> Lumen: 20400 lumens
- >> Mast Height: 21FT
- >> Mast Type: Manual
- >> Charger: Optional
- >> Transportation Size: 100x39.4x105.5(inch)
 - > Weight: 1323 LBS

Features

- >> Free Fuel Cost
- >> 40 Hours Continuously Lighting
- >> Easy to Maintain and Clean
- >> Convenient Transportation and Installation
- >> Free Maintenance Battery

Lamp Technical Characteristics

- >> Light: 2x60W
- >> Light Height: 21 FT
- >> Area: 0.16 acres@5lx
- >> Area: 262.5×262.5 FT
 - > Luminosity: 2.3 lx average in the whole area
